Resolution 11-1

Joe Aiello
Sangamon County Clerk

Whereas, the Information Services Department in the Sangamon County Complex uses a Uninterruptible Power Supply system to insure data integrity during a power interruption; and,

Whereas, the current piece of equipment is over 14 years old and will require expensive maintenance and repair to remain functional; and,

Whereas the cost of this maintenance and the age of the equipment makes it reasonable to consider replacing the equipment instead of repairing and maintaining the current piece of equipment; and,

Whereas, bids were sought for the replacement of a Uninterruptible Power Supply with Springfield Electric submitting the lowest responsible bid of \$18,000.00 for a MGE 20 Kva Galaxy UPS System; and,

Whereas, this bid meets the necessary specifications for this piece of equipment; and,

Whereas, at their December 13th, 2004 meeting, the Public Building Commission of Springfield, Sangamon County, Illinois approved using funds from the 1990 Surplus to fund this purchase; and,

Now therefore be it resolved by the County Board of Sangamon County, Illinois, in session on this 8th Day of February, 2005 that the purchase of an MGE 20 Kva Galaxy UPS system from Springfield Electric is hereby approved, and the funding of this purchase coming from the 1990 Surplus Funds of the Public Building Commission of Springfield, Sangamon County, Illinois is authorized.

Rosemarie Lery, Chairman
Sangamon County Building & Grounds Committee
