

Resolution 22-1

Whereas, the Information Services Department in the Sangamon County Complex uses an Independent Cooling system to insure data integrity and properly functioning equipment; and,

Whereas, the current piece of equipment is over 16 years old and will require expensive maintenance and repair to remain functional; and,

Whereas the cost of this maintenance and the age of the equipment makes it reasonable to consider replacing the equipment instead of repairing and maintaining the current piece of equipment; and,

Whereas, bids were sought for the replacement of an Independent Cooling System with Engineered Design Systems submitting the lowest responsible bid of \$19,774.00 for a Data Aire 10 ton twin compressor unit; and,

Whereas, this bid meets the necessary specifications for this piece of equipment; and,

Whereas, having been given approval by the Chairman, and Treasurer on May 05th, 2005, the Public Building Commission of Springfield, Sangamon County, Illinois approved using funds from the 1990 Surplus to fund this purchase; and,

Now therefore be it resolved by the County Board of Sangamon County, Illinois, in session on this 14th Day of June, 2005 that the purchase of an Data Aire Cooling system from Engineered Design Facilities is hereby approved, and the funding of this purchase coming from the 1990 Surplus Funds of the Public Building Commission of Springfield, Sangamon County, Illinois is authorized.
