

Resolution 13-1

Whereas, Sangamon County is currently implementing an integrated criminal justice system to upgrade our current law enforcement, dispatch, criminal records, corrections management, and field based reporting technology; and,

Whereas, an integrated system using shared data, hardware, and software is the most efficient way for public safety agencies to serve the citizens of Sangamon County; and,

Whereas, an integrated system provides standardization to the communications equipment and technology used by public safety agencies which in turn facilitates a more efficient method for repair and maintenance of the systems; and,

Whereas, Sangamon County is responsible for supporting the infrastructure, software, and hardware of the integrated criminal justice system; and,

Whereas, other public safety agencies desire to access the integrated justice system and are willing to pay a monthly access fee to utilize the system and all of its benefits; and,

Whereas, Sangamon County recognizes the public safety benefit of having multiple agencies using a common database of information; and,

Whereas, an access fee of \$100 per month per unit accessing the integrated criminal justice system is an appropriate fee for usage of the system with Sangamon County providing access for one unit per agency at no cost; and,

Now therefore be it resolved by the Sangamon County Board in session this 12th Day of December, 2006, that a fee of \$100 per month per unit accessing the integrated criminal justice system is hereby established and that Sangamon County will provide access for one unit per agency at no cost.
