

Resolution No. 13-1

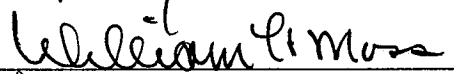

WHEREAS, the Sangamon County Recorder's Office needs to convert current optical images to its new image management system.

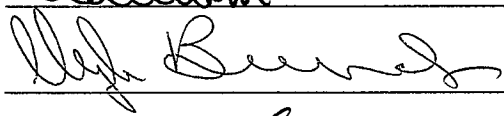

WHEREAS, Fidlar Companies has submitted a pricing quote regarding the conversion of existing optical image repository (optical platters) to the new image management system; and

WHEREAS, the cost of the conversion is reasonable;

NOW, THEREFORE, BE IT RESOLVED by the Members of the Board of Sangamon County, Illinois, in session this 10th day of January, 2006, that the expenditure of \$26,500.00 from fund 006.025.541.000 Records Restoration (Contractual Services) for the Recorder's conversion of existing Optical Image Repository is approved.

Ms. Lamm,

Please review the following information and pricing. Included below is pricing to convert your existing image repository from optical storage to magnetic storage. This move should be considered a high priority because of the fact that the existing storage servers are 4-5 years old. Maintaining these servers will become problematic as parts will not be available for them soon. Also, as you move forward with your plan to convert another 30-60GB of microfilm to magnetic images, these servers and jukebox will soon be out of storage space. These servers and jukebox are not expandable. This conversion will also prepare you for eRecording, Automated SSN redaction and the utilization of barcodes in your receipting and indexing process.

<u>SOFTWARE</u>	
Fidlar Magnetic Image Management Software	\$ 9,500.00
<u>SERVICES</u>	
Conversion of existing Optical Image Repository	\$26,500.00
Installation\Integration	\$ 8,500.00
TOTAL	\$44,500.00

Please Note - 50% of total will be invoiced at signing.
Balance will be invoiced at completion of installation.

Please feel free to call with any questions. If accepted, simply fax back to my attention at 309\794-3201.

Sincerely,

Greg Bachman
