RECOMMENDED STANDARDS FOR USE VARIATIONS

Case #: 2008-65

Address: 1420 N. 29th St.

The Zoning Board of Appeals shall not recommend to the Sangamon County Board that the regulations of the zoning ordinance be varied as authorized in Section 17.66.010 thereof, unless it shall make findings of fact based upon the evidence presented to it in each specified case:

- (i) that the variance is justified by a showing of special circumstances demonstrating practical difficulties or particular hardship in the way of carrying out the strict letter of the Zoning Regulations.

No. There is no hardship in relation to this property.

- (ii) that the variance is compatible with the trend of development in the area.

The area has remained residential in character with some commercial activity along Ridge.

- (iii) that the variance will benefit the community and be in harmony with the general purpose and intent of the Zoning Regulations.

There is no particular benefit to the community in having a mini storage building at this location.

- (iv) that the variance will not create a negative impact on the area, will not alter the essential character of the locality, impair an adequate supply of light and air to adjacent property, increase the congestion of traffic, or diminish or impair property values in the locality.

The subject property is residential in character. Having a mini storage building at this location will alter the character of the area.
