**SANGAMON COUNTY
RECOMMENDED - STANDARDS FOR VARIATIONS**

Case #: 2019-028

Address: 7130 Fulton Road, New Berlin

The Zoning Board of Appeals shall not recommend to the Sangamon County Board that the regulations of this ordinance be varied as authorized in F. (1) hereof, unless it shall make findings of fact based upon the evidence presented to it in each specified case:

- (i) that the property in question cannot be economically used or yield a reasonable return, if permitted to be used only for the conditions allowed by the regulations.

The subject property is 4.6 acres and an accessory structure could be placed in a number of locations in order to comply with the setback regulations and not be located within the proposed right-of-way. A negative precedent could be set if the variances are granted as the hardship is solely created by the property owner.

- (ii) that the plight of the owner is due to circumstances unique to the property and not generally applicable to other property in the area.

While the petition cites a number of circumstances, none of these circumstances are unique to the subject property to warrant granting the requested variances. Upon the site visit, staff determined there were other areas on the 4.6 acre subject property where the accessory structure could be placed to be in compliance with the Zoning Ordinance and not within the proposed right-of-way.

- (iii) that the variation, if granted, will not alter the essential character of the locality, impair an adequate supply of light and air to adjacent property, increase the congestion of traffic, or diminish or impair property values in the locality.

Staff has concerns allowing the accessory structure at the current location due to the placement of the structure not only in the required front yard setback but also within the proposed right-of-way. A negative precedent could be set if the variances are granted as the hardship is solely created by the property owner.
