

Resolution No. 15-1

Whereas, The Sangamon County Building and Grounds department has requested and received the bid to replace a defective drive in elevator #6.

Whereas, Kone elevator proposes to furnish and install the necessary labor, materials, tools, and supervision to perform the following work on the #6 Traction elevator located at the Sangamon County Building:

Replace the defective and obsolete drive with a new digital drive.

- In addition to being supported by the manufacturer, a new digital drive is much more reliable
- The new drive also provides energy savings, because it regenerates most of the power to ascend as the elevator descends. Overall, the performance and reliability of the elevator will be improved.

Be it resolved that Sangamon County Board in session on the 7th day of April, 2014 approves these repairs to have elevator #6 repaired and operating for the amount to be no more than the total listed below.

Name of Company:	Kone Elevator
Address:	2908 Old Rochester Rd. Springfield, Illinois 62703
Amount of Contract:	\$25,620.00

Respectfully Submitted,

Chairman
John Fulginiti
