COUNTY BOARD MEMBER: # 11 NAME: James Schackmann

DOCKET NUMBER: 2022-001

ADDRESS: 2933 Tozer Road, Springfield, IL 62707

PETITIONER: William Jennings

PRESENT ZONING CLASSIFICATION: "A" Agricultural District.

REQUESTED ZONING CLASSIFICATION: For Proposed Parcel 1: pursuant to Chapters 17.68 and 17.12, a rezoning from "A" Agricultural District to "R-1" Single-Family Residence District; pursuant to Chapter 17.66, a variance of Section 17.36.010(B) to allow an accessory structure to be approximately twenty-four (24) feet instead of the maximum height of eighteen (18) feet allowed in the "R-1" Single-Family Residence District; and, a variance of Chapter 17.04 (Lot depth) to allow the lot depth to be greater than two and one-half (2.5) times the lot width; and, for Proposed Parcel 2: pursuant to Chapter 17.66, a variance of Section 17.38.030 to allow one (1) parcel less than forty (40) acres (approximately 37 acres).

AREA: 41.47 acres

COMMENTS: None

OBJECTORS: None

PLANNING COMMISSION STAFF RECOMMENDATION: Recommend approval. The LESA score of 176 indicates the subject property is suitable for agricultural use only. The structures have been located on the subject property prior to the adoption of the Zoning Ordinance. The relatively small size of Proposed Parcel 1 (5 acres) and the rural residential trend make residential zoning appropriate. Allowing an accessory structure to be 24 feet instead of 18 feet in the R-1 District would be consistent with the height of accessory structures located on properties in this area that are zoned Agricultural, which has no height restriction. The other variances to allow the lot depth to exceed 2.5 times the lot width and to allow one parcel less than 40 acres are necessary for the division to sell the single-family residence and outbuildings while allowing the petitioner to keep the cropland. The Standards for Variation are met.

SANGAMON COUNTY ZONING BOARD OF APPEALS RECOMMENDATION:
Approval of Staff Recommendation.

**SANGAMON COUNTY
RECOMMENDED - FINDINGS OF FACT**

Case #: **2022-001**

Address: **2933 Tozer Road, Springfield**

- (i) Existing uses of property within the general area of the property in question.

North – Cell tower and timber/pasture. East – Residence and cropland. South & West – Residence.

- (ii) The zoning classification of property within the general area of the property in question.

North, East, South, & West – Agricultural.

- (iii) The suitability of the property in question to the uses permitted under the existing zoning classification.

The LESA score of 176 indicates the subject property is suitable for agricultural use only. The structures have been located on the subject property prior to the adoption of the Zoning Ordinance. The relatively small size of Proposed Parcel 1 (5 acres) and the rural residential trend make residential zoning appropriate.

- (iv) The trend of development, within the vicinity since the property was originally classified.

The area has a rural residential trend. In 2003, R-1 and variances were granted for three parcels southwest of the subject property. In 2000, a variance was denied for zero road frontage northwest of the subject property. In 1999, a Conditional Permitted Use for a dog kennel was approved west of the subject property. In 1997, a variance was denied for lot area west of the subject property. In 1991, R-1 was granted for seven parcels west of the subject property. In 1985, a Conditional Permitted Use was granted for a private outdoor recreation center (shooting range) west of the subject property.

**SANGAMON COUNTY
RECOMMENDED - STANDARDS FOR VARIATIONS**

Case #: **2022-001**

Address: **2933 Tozer Road, Springfield**

The Zoning Board of Appeals shall not recommend to the Sangamon County Board that the regulations of this ordinance be varied as authorized in F. (1) hereof, unless it shall make findings of fact based upon the evidence presented to it in each specified case:

- (i) that the property in question cannot be economically used or yield a reasonable return, if permitted to be used only for the conditions allowed by the regulations.

Allowing an accessory structure to be 24 feet instead of 18 feet in the R-1 District would be consistent with the height of accessory structures located on properties in this area that are zoned Agricultural, which has no height restriction. The other variances to allow the lot depth to exceed 2.5 times the lot width and to allow one parcel less than 40 acres are necessary for the division to sell the single-family residence and outbuildings while allowing the petitioner to keep the cropland.

- (ii) that the plight of the owner is due to circumstances unique to the property and not generally applicable to other property in the area.

Other parcels in the area are zoned Agricultural, which has no height restrictions. The single-family residence and outbuildings have been located on the subject property prior to the adoption of the Zoning Ordinance and provide a logical dividing line from the tillable cropland on the subject property.

- (iii) that the variation, if granted, will not alter the essential character of the locality, impair an adequate supply of light and air to adjacent property, increase the congestion of traffic, or diminish or impair property values in the locality.

Negative impacts are not anticipated.
