**SANGAMON COUNTY  
RECOMMENDED - FINDINGS OF FACT**

Case #: **2020-035**

Address: **6700-6800 Block of Rentshler Road, Rochester**

- (i) Existing uses of property within the general area of the property in question.  
**North & East – Cropland and timber. South & West – Residence and cropland.**
- (ii) The zoning classification of property within the general area of the property in question.  
**North, East, South, & West – Agricultural.**
- (iii) The suitability of the property in question to the uses permitted under the existing zoning classification.

**The LESA score of 170 indicates the property is marginal requiring mitigating factors for non-agricultural development. In this case, the area has a rural residential trend with three residential subdivisions within one-half mile of the subject property.**

- (iv) The trend of development, within the vicinity since the property was originally classified.  
**The area has a rural residential trend with the Country Trails subdivisions located northwest of the subject property. In 2017, a variance was granted to allow one parcel less than 40 acres west of the subject property.**

**SANGAMON COUNTY  
RECOMMENDED - STANDARDS FOR VARIATIONS**

Case #: **2020-035**

Address: **6700-6800 Block of Rentshler Road, Rochester**

The Zoning Board of Appeals shall not recommend to the Sangamon County Board that the regulations of this ordinance be varied as authorized in F. (1) hereof, unless it shall make findings of fact based upon the evidence presented to it in each specified case:

- (i) that the property in question cannot be economically used or yield a reasonable return, if permitted to be used only for the conditions allowed by the regulations.

**The petition states: "Use of the land as solely agricultural or solely recreational is not economically viable." Due to the varying topography, timber, and floodplain on the subject property, only approximately 6 acres have been utilized as cropland. Staff agrees that due to the limitations listed previously, large residential lots may be the best way for the subject property to yield a reasonable return.**

- (ii) that the plight of the owner is due to circumstances unique to the property and not generally applicable to other property in the area.

**While Proposed Parcel 2 is deep, approximately 300-400 feet of the rear yard is not buildable due to the floodplain and heavy timber.**

- (iii) that the variation, if granted, will not alter the essential character of the locality, impair an adequate supply of light and air to adjacent property, increase the congestion of traffic, or diminish or impair property values in the locality.

**Negative impacts are not anticipated.**
