AREA: 37.91 acres

COMMENTS: None

OBJECTORS: None

PLANNING COMMISSION STAFF RECOMMENDATION: Recommend approval. While the LESA score of 184 indicates the subject property is suitable for agricultural use only, the petitioner is proposing to separate the cropland from the single-family residence and pasture while also creating an additional buildable lot. The proposed parcel sizes are consistent with other residential parcels in the area. The subject property is currently under the minimum 40 acre requirement and the single-family residence is setback further from the road which necessitates the lot area and lot-width-depth variances. Other parcels in the area are zoned Agricultural, which has no height restrictions for accessory structures. The Standards for Variation are met.

SANGAMON COUNTY ZONING BOARD OF APPEALS RECOMMENDATION:
Approval of Staff Recommendation.

**SANGAMON COUNTY
RECOMMENDED - FINDINGS OF FACT**

Case #: **2022-016**

Address: **2625 Central Point Road, Cantrall**

(ii) The zoning classification of property within the general area of the property in question.

North, East, South, & West – Agricultural.

**SANGAMON COUNTY
RECOMMENDED - STANDARDS FOR VARIATIONS**

Case #: **2022-016**

Address: **2625 Central Point Road, Cantrall**

The Zoning Board of Appeals shall not recommend to the Sangamon County Board that the regulations of this ordinance be varied as authorized in F. (1) hereof, unless it shall make findings of fact based upon the evidence presented to it in each specified case:

- (i) that the property in question cannot be economically used or yield a reasonable return, if permitted to be used only for the conditions allowed by the regulations.

Granting the requested variances would allow the petitioner to yield a reasonable return by dividing the subject property into three lots separating the cropland from the existing residence and creating an additional buildable lot. Allowing accessory structures to be 24 feet instead of 18 feet in the R-1 District would be consistent with the height of accessory structures located on properties in this area that are zoned Agricultural, which has no height restriction.

- (ii) that the plight of the owner is due to circumstances unique to the property and not generally applicable to other property in the area.

The subject property is currently under the minimum 40 acre requirement and the single-family residence is setback further from the road which necessitates the lot area and lot-width-depth variances. Other parcels in the area are zoned Agricultural, which has no height restrictions for accessory structures.

- (iii) that the variation, if granted, will not alter the essential character of the locality, impair an adequate supply of light and air to adjacent property, increase the congestion of traffic, or diminish or impair property values in the locality.

Negative impacts are not anticipated.
