COUNTY BOARD CHAIRMAN

ATTEST:

SANGAMON COUNTY CLERK

RECAP
(For County Board Use)

COUNTY BOARD MEMBER: # 6 NAME: Tracy Sheppard

DOCKET NUMBER: 2023-011

ADDRESS: 8101 W. State Route 104, Auburn, IL 62615

PETITIONER: Brett and Melissa Hunley and Paul and Nicole Hunley

PRESENT ZONING CLASSIFICATION: "A" Agricultural District.

REQUESTED ZONING CLASSIFICATION: For Proposed Parcel 1: Pursuant to Chapters 17.68 and 17.12, a rezoning from "A" Agricultural District to "R-1" Single-Family Residence District; pursuant to Chapter 17.66, a variance of Chapter 17.04 (Lot depth) to allow the lot depth to be greater than two and one-half (2.5) times the lot width; and, a variance of Section 17.36.010(B) to allow an accessory structure to be approximately twenty-four (24) feet instead of the maximum height of eighteen (18) feet allowed in the "R-1" Single-Family Residence District.

AREA: 20.6 acres

COMMENTS: None

OBJECTORS: None

PLANNING COMMISSION STAFF RECOMMENDATION: Recommend approval. While the LESA score of 227 indicates the property is suitable for agricultural use only, the northeast portion of the property contains the 80-plus year old farmstead, making it unlikely to revert to cropland. Granting the requested lot-width-depth variance will facilitate a division to separate the single-family residence and outbuildings from the cropland. Allowing an accessory structure to be 24 feet instead of 18 feet in the R-1 District would be consistent with the height of accessory structures located on properties in this area that are zoned Agricultural, which has no height restriction. No change in land use is contemplated and negative impacts are not anticipated. The Standards for Variation are met.

SANGAMON COUNTY ZONING BOARD OF APPEALS RECOMMENDATION:
Approval of Staff Recommendation.

**SANGAMON COUNTY
RECOMMENDED - FINDINGS OF FACT**

Case #: **2023-011**

Address: **8101 West State Route 104, Auburn**

(i) Existing uses of property within the general area of the property in question.
North, East, South, & West – Cropland.

(ii) The zoning classification of property within the general area of the property in question.
North, East, South, & West – Agricultural.

(iii) The suitability of the property in question to the uses permitted under the existing zoning classification.

While the LESA score of 227 indicates the property is suitable for agricultural use only, the northeast portion of the property contains the 80-plus year old farmstead, making it unlikely to revert to cropland.

(iv) The trend of development, within the vicinity since the property was originally classified.

The trend of development in the area is agricultural. In 2009, the subject property was granted variances for a different division. In 2008, a variance for the lot width to be met greater than 60 feet from the public road was granted west of the subject property. In 2007, variances for the lot depth to exceed 2.5 times the lot width and to allow two parcels less than 40 acres were granted west of the subject property.

**SANGAMON COUNTY
RECOMMENDED - STANDARDS FOR VARIATIONS**

Case #: **2023-011**

Address: **8101 West State Route 104, Auburn**

The Zoning Board of Appeals shall not recommend to the Sangamon County Board that the regulations of this ordinance be varied as authorized in F. (1) hereof, unless it shall make findings of fact based upon the evidence presented to it in each specified case:

- (i) that the property in question cannot be economically used or yield a reasonable return, if permitted to be used only for the conditions allowed by the regulations.

Granting the requested lot-width-depth variance will facilitate a division to separate the single-family residence and outbuildings from the cropland. Allowing an accessory structure to be 24 feet instead of 18 feet in the R-1 District would be consistent with the height of accessory structures located on properties in this area that are zoned Agricultural, which has no height restriction.

- (ii) that the plight of the owner is due to circumstances unique to the property and not generally applicable to other property in the area.

The location of the 80-plus year old single-family residence and accessory structures is a unique circumstance to justify granting the requested lot-width-depth variance. Other parcels in the area are zoned Agricultural, which has no height restrictions.

- (iii) that the variation, if granted, will not alter the essential character of the locality, impair an adequate supply of light and air to adjacent property, increase the congestion of traffic, or diminish or impair property values in the locality.

No change in land use is contemplated and negative impacts are not anticipated.
