COMMENTS: None

OBJECTORS: None

PLANNING COMMISSION STAFF RECOMMENDATION: Recommend approval. While the LESA score of 188 indicates the property is suitable for agricultural use only, the small subject property is already developed. The subject property has had two residences on the property for over 25 years. Division of the subject property will help settle an estate. The division requires a right-of-way conveyance, which brings the proposed parcels under the one acre minimum required when public sewer is not available. The Standards for Variation are met.

SANGAMON COUNTY ZONING BOARD OF APPEALS RECOMMENDATION:
Approval of Staff Recommendation.

RECOMMENDED - FINDINGS OF FACT

Case #: **2020-022**

Address: **6065 Turkey Run Road, Sherman**

- (i) Existing uses of property within the general area of the property in question.
North, East, South, & West – Residences.
- (ii) The zoning classification of property within the general area of the property in question.
North, East, South, & West – Agricultural.
- (iii) The suitability of the property in question to the uses permitted under the existing zoning classification.

While the LESA score of 188 indicates the property is suitable for agricultural use only, the subject property’s small size (approximately 1.8 acres), being in an area of established rural residences, and the presence of two residences makes it unlikely the subject property will economically revert back to cropland.

- (iv) The trend of development, within the vicinity since the property was originally classified.
The area has a rural residential trend.

**SANGAMON COUNTY
RECOMMENDED - STANDARDS FOR VARIATIONS**

Case #: **2020-022**

Address: **6065 Turkey Run Road, Sherman**

The Zoning Board of Appeals shall not recommend to the Sangamon County Board that the regulations of this ordinance be varied as authorized in F. (1) hereof, unless it shall make findings of fact based upon the evidence presented to it in each specified case:

- (i) that the property in question cannot be economically used or yield a reasonable return, if permitted to be used only for the conditions allowed by the regulations.

A division is being proposed for the subject property to settle an estate and place the existing residence and the existing manufactured home on separate parcels. The subject property is required to convey right-of-way due to the division which makes each of the proposed parcels less than one acre.

- (ii) that the plight of the owner is due to circumstances unique to the property and not generally applicable to other property in the area.

The subject property has had two residences on the property for over 25 years. Division of the subject property will help settle an estate. The division requires a right-of-way conveyance, which brings the proposed parcels under the one acre minimum required when public sewer is not available.

- (iii) that the variation, if granted, will not alter the essential character of the locality, impair an adequate supply of light and air to adjacent property, increase the congestion of traffic, or diminish or impair property values in the locality.

Negative impacts are not anticipated.
