RECOMMENDED - STANDARDS FOR VARIATIONS**

Case #: 2007-24

Address: 5757 Auburn Road

The Zoning Board of Appeals shall not recommend to the Sangamon County Board that the regulations of this ordinance be varied as authorized in F. (1) hereof, unless it shall make findings of fact based upon the evidence presented to it in each specified case:

- (i) that the property in question cannot be economically used or yield a reasonable return, if permitted to be used only for the conditions allowed by the regulations.

Granting the variance would facilitate division of the property.

- (ii) that the plight of the owner is due to circumstances unique to the property and not generally applicable to other property in the area.

There is an area at the rear of the property that is a suitable building site and each resulting tract will have owned, non-easement based access.

- (iii) that the variation, if granted, will not alter the essential character of the locality, impair an adequate supply of light and air to adjacent property, increase the congestion of traffic, or diminish or impair property values in the locality.

No negative impact is anticipated.
