Influenza, commonly called the flu, is caused by viruses that infect the respiratory tract and spreads from person to person when an infected person coughs or sneezes. Typical symptoms include a fever of 100° to 103° in adults and often higher in children, dry cough, runny or stuffy nose, headache, muscle aches, and extreme fatigue. The flu season typically runs from October through May. It takes up to 2 weeks for protection to develop after the vaccination.

We accept Medicare Part B, Medicaid, Blue Cross, Aetna, Humana, Cigna, Molina, Meridian, United Healthcare and Health Alliance.
